LITTLE DANGER OF FLOODS

Temperature Rise Likely to End Tomorrow Night

Despite the fact that rain is forecast for tonight and early tomorrow, there is little danger of floods in New England at this time. G. Harold Noyes, senior meteorologist at the Federal building, said today:

"As far as I can see now," Mr. Noyes said, "the high temperature and the rain that will probably fall tonight and tomorrow morning will cause some rise of water in the rivers, but colder weather tomorrow night will check anything that might be classed as a flood."

Mr. Noyes' forecast for Boston today indicated that threatening weather and warm temperatures are in store for this district today, tonight and tomorrow, with the lowest temperature tonight in the 40s, the highest minimum Boston has had since December.

Light rain is predicted as possible tonight and tomorrow, with colder conditions due tomorrow night. Moderate westerly wind, shifting to westerly Wednesday, will prevail. The mercury in the official thermometer at the Weather Bureau station was recorded at 52 at 8 this morning, two degrees above the low for the night. At noon the mercury had risen to 55.

HARVARD BOYS HAVE "PLAYING PONIES" FEVER

Bookies Around Square Do Lively Business, One Reporting \$1000 Daily Take

A new sport is flourishing at Harvard this year over which the Harvard Athletic Association has no jurisdiction, for it has come to light recently that the sons of John Harvard are "playing the ponies." Just exactly what percentage of Harvard students are daily perusing the racing forms that abound in Harvard newspapers is impossible to learn, but it is known that a great many students have taken the fever.

The money, which would make Bill Englehart, who plays the week before the Harvard-Yale football game look a little weak, is handled by at least half a dozen bookmakers taking plays from students in and around Harvard as every day, and it is certain that any member of Harvard College who feels the urge to play a three-hour parlay would have little difficulty "placing it."

Football Betting Also

One bookie has sufficiently profited from the Harvard bet that he has been enabled to set up a regular establishment, complete with two or three lines to "headquarters." The sweet strains of recordings from popular bands issuing from the houses and the yard are intermittently broken up by the ringing "Third at Santa Anita, the winner."

Any Old Bet Taken

The "bookies" will take any bet that students from 18 cents up and anybody who wants to hang a sign of a quarter of a mile around will find takers in an area of roughly a quarter of a mile around Harvard square. One of the professionals

INQUIRY INTO DRACUT FUNDS

Dist Atty Bishop Starts Town Investigation

An investigation of the affairs of the town of Dracut was launched by the Middlesex County district attorney's office this morning upon receipt of a petition from taxpayers of the town asking presentation of such violations of the law as may be found.

The petition alleges that the law prohibiting the incurring of liabilities in excess of appropriations has been violated by the various departments of the town. The petition provides that no department shall incur liability in excess of the appropriation made for use of such department, except in cases of emergency involving health or safety of persons or property, and then only by order of the selectmen.

IT'S CERTAINLY NO JOKE—TO BE A "DENTAL CRIPPLE"

Soft foods rob gums of needed exercise—that's why gum troubles start—so Switch to IPANA AND MASSAGE today!

Your dentist is not a vicious man. He cannot cut at your home every day to find out whether or not you are massaging your gums. So when he tells you "Your gums need better care—they're too tender and sensitive"—follow his advice. Never neglect "pink tooth brush."

"Pink tooth brush" is simply a warning, but a warning that you cannot ignore. It tells you emphatically that our modern diet of soft foods

hasn't given your gums enough vigorous chewing to do... that they have grown flabby and tender... that they need better care and more sensible care... that they need Ipana and massage.

Ipana plus massage has become a part of modern dental practice because Ipana is especially designed to benefit the gums as well as the teeth. Massage your gums with your finger or brush every time you brush your teeth and you'll see why. Circulation quickens. Lay down weaker. Your gums feel stronger and healthier. New firmness develops. And your teeth show a whiter, better looking sparkle.

Help your dentist to keep you from being a "dental cripple." Don't let your tooth brush show "pink." Don't risk gum troubles like pyorrhea or Vincent's disease. Firm gums and shining white teeth are vitally important to you. So switch to Ipana and massage, and switch today.
